

EYOS Begins Offering Ultimate Antarctic and Arctic

EYOS Expeditions has announced the arrival of the new 26-guest super yacht Legend. Setting a new standard in expedition yachts upon her debut, now available to charter in Antarctica and in the Arctic.

The 77-metre Legend is equipped with a wide range of onboard facilities, including a gym, Balinese spa with sauna & jacuzzi, beauty salon, movie theatre and entertainment system, swimming pool and a broad collection of toys ranging from paddle boards to jet-skis and snow scooters.

The EYOS team will be working with the yacht to deliver once-in-a-

lifetime experiences and tailored, world-class expeditions in a standard of luxury that has previously been unobtainable in these regions. Their experienced staff, backed by decades of expedition expertise, will tailor every charter to the guests' preferences. They'll craft a bespoke itinerary and provide the most knowledgeable and personable expedition leaders, historians, naturalists, photography experts and dive masters to bring the destination alive.

Ben Lyons, CEO of EYOS Expeditions, said, "There are very few polar capable superyachts available, and yet few moments are more thrilling for guests than watching their yacht navigate

To charter Legend please contact EYOS Expeditions Ltd. by email – info@eyos-expeditions.com

Adventures Onboard The New Super Yacht LEGEND

around ice. Legend, originally built as a true icebreaker, will undoubtedly offer the ultimate polar experience."

Lyons added, "Because the yacht accommodates 26 guests - rather than just the 12 that most yachts carry - we believe she will appeal to a previously untapped corner of the market. In addition to private clients and their families seeking the ultimate adventure in luxury, Legend will be popular with alumni groups, corporate clients, commercial companies and the TV & film industry".

The contemporary interior design and accommodation - created by Verkerk Yachting & Interior Design in the Netherlands -

includes a Master Stateroom with a king sized bed, a settee/sofa, office, a bar and luxury en-suite bathrooms, for him and her, with a spa. There are also seven Double Suites (with queen sized double beds), three Twin Suites and two convertible cabins.

For those wanting to maximize their adventure, Legend also offers the rare opportunity to explore both above and below the surface. The yacht is equipped with a helicopter and a three-person submarine capable of diving to 300 meters below the surface. Both the submarine and helicopter are available at extra cost.
